CASE STUDY

Oundle School

Oundle, Peterborough, United Kingdom

As part of the Schools ongoing Sports Masterplan the athletics track was relocated to a prominent new location to allow the current track site to become the home of the new sports centre.

Oundle school needed a suitable surface for their new and impressive **5765m²** athletics track and infield areas, **CONIPUR SP** red was chosen for this specific project and the project was completed in **June 2018**.

The CONIPUR SP synthetic surface is the cost-effective multipurpose solution for athletics. The structural spray-coated surface is primarily used for running tracks, run-up tracks and athletics facilities. It has a structured surface that is also water-permeable, allowing for easy and fast installation.
